

WIRELESS MAGNET DETECTOR

PRODUCT CODE: CTX5 (white)
CTX5B (brown)
CTX5D (dual white)
CTX5DB (dual brown)

Technical specification

- dynamic code system *KEELOQ®* of Microchip Corp. USA
- operating frequency: 433,92 MHz
- periodic identification transmission
- average range: up to 100m in open field
- power supply: 3V battery CR123A (not included)
- average battery life time: up to 10 years
- low battery information
- anti-sabotage tamper alarm
- extra input for wired magnet contact (selected with A/B jumper)
- CTX5 & CTX5B one magnet (included)
- CTX5D & CTX5DB two magnets (included)
- operating temperature range -25 to + 55 °C,
- external dimensions: (L/W/D) 105/24/27mm

Manufacturer: ELMES ELEKTRONIK, 54-611 Wrocław, Avicenny 2 Street, Poland

Manufacturer's Limited Warranty: 2 years
